Independent Auditor's Report

To the Members of Flipkart Internet Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Flipkart Internet Private Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), and its associates, as listed in Annexure I, which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows, the Consolidated Statement of Changes in Equity for the year then ended and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group and its associates, as at 31 March 2025, their consolidated loss (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

4. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Directors' Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

5. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associates in accordance with the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and its associates, and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to

the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

6. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates are responsible for assessing the ability of the Group and of its associates to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group and its associates or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

7. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

8. As part of an audit in accordance with Standards on Auditing specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management;

- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, and its associates, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

10. We did not audit the financial statements of one subsidiary, whose financial statements reflect total assets of Rs. 98 million as at 31 March 2025, total revenues of Rs. 612 million and net cash outflows amounting to Rs. 87 million for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit (including other comprehensive income) of Rs. 70 million for the year ended 31 March 2025, as considered in the consolidated financial statements, in respect of two associates, whose financial information have not been audited by us. These financial statements / financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the

amounts and disclosures included in respect of the aforesaid subsidiary and associates, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

11. Based on our audit, we report that the provisions of Section 197 read with Schedule V to the Act are not applicable to the Holding Company incorporated in India whose financial statements have been audited under the Act since none of such companies is a public company as defined under Section 2(71) of the Act. Accordingly, reporting under Section 197(16) is not applicable.

12. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act based on the consideration of the Order report issued till date by us, of the Holding Company included in the consolidated financial statements and covered under the Act we report that there are no qualifications or adverse remarks reported in the Order report of the Holding Company. Further, following are the companies included in the consolidated financial statements for the year ended 31 March 2025 and covered under the Act that are audited by other auditors, for which the respective reports under Section 143(11) of the Act of such companies have not yet been issued by the respective other auditors, as per information and explanation given to us by the Management in this respect.

S No	Name	CIN	Subsidiary/ Associate
1	ANS Digital Private Limited	U74999DL2017PTC315839	Subsidiary
2	Easyrewardz Software Services Private Limited	U72900HR2017PTC070374	Associate
3	Shadowfax Technologies Private Limited	U72300KA2015PTC150324	Associate

13. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;

b) Except for the matters stated in paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books;

c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;

e) On the basis of the written representations received from the directors of the Holding Company and taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company are disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act;

f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company, covered under the Act, and the operating effectiveness of such controls, refer to our separate report in 'Annexure II' wherein we have expressed an unmodified opinion;

g) The modification relating to the maintenance of accounts and other matters connected therewith with respect to the consolidated financial statements are as stated in paragraph 13(b) above on reporting under Section 143(3)(b) of the Act and paragraph 13(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended); and

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the

Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Holding Company as detailed in Note 21 to the consolidated financial statements;

ii. The Holding Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2025;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company covered under the Act, during the year ended 31 March 2025;

iv. a. The Management of the Holding Company incorporated in India whose financial statements have been audited under the Act have represented to us that, to the best of their knowledge and belief other than as disclosed in Note 37 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

b. The Management of the Holding Company incorporated in India whose financial statements have been audited under the Act have represented to us respectively that, to the best of their knowledge and belief, other than as disclosed in Note 37 to the accompanying consolidated financial statements, no funds have been received by the Holding Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c. Based on such audit procedures performed by us, as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement;

v. The Holding Company has not declared or paid any dividend during the year ended 31 March 2025; and

vi. Based on our examination, the Holding Company, in respect of financial year commencing on or after 1 April 2024, has used accounting software for maintaining its books of accounts which did not have a feature of recording audit trail (edit log) facility. Consequently, the audit trail has not been preserved by the Holding Company as per the statutory requirements for record retention.

Further, the Holding Company has also used accounting software which are operated by third party software service providers for maintaining its books of account and on review of the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organization), we are unable to comment on whether audit trail feature of the said software was enabled and operated throughout the year for all relevant transactions recorded in the software or whether there were any instances of audit trail feature being tampered with. Consequently, we are also unable to comment on preservation of audit trail as per the statutory requirements for record retention.

11 June 2025

Annexure I referred to in Paragraph 1 of the Independent Auditor's Report of even date to the members of Flipkart Internet Private Limited on the consolidated financial statements for the year ended 31 March 2025

List of subsidiary and associates included in the Consolidated Financial Statements:

S No	Name	Country of Incorporation	Subsidiary/ Associate
1	ANS Digital Private Limited	India	Subsidiary
2	Easyrewardz Software Services Private Limited	India	Associate
3	Shadowfax Technologies Private Limited	India	Associate

Annexure II to the Independent Auditor's Report of even date to the members of Flipkart Internet Private Limited on the consolidated financial statements for the year ended 31 March 2025

Independent Auditor's Report on the internal financial controls with reference to financial statements under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Flipkart Internet Private Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group') and its associates as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company, which is a company covered under the Act, as at that date.

Responsibilities of Management for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary company and its associate company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. The audit of internal financial controls with reference to financial statements of one associate company, which is a company covered under the Act, and reporting under Section 143(3)(i) are exempted vide MCA notification no. G.S.R. 583(E) dated 13 June 2017 read with corrigendum dated 14 July 2017. Consequently, our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company, subsidiary and an associate company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI and prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Annexure II to the Independent Auditor’s Report of even date to the members of Flipkart Internet Private Limited on the consolidated financial statements for the year ended 31 March 2025 (Cont’d)

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, which is a company covered under the Act, has in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance issued by the ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements in so far as it relates to one subsidiary, which is a company covered under the Act, whose financial statements reflect total assets of Rs. 98 million and net assets of (Rs. 1359) million as at 31 March 2025, total revenues of Rs. 612 million and net cash outflow amounting to Rs. 87 million for the year ended on that date; and one associate company, which is a company covered under the Act, in respect of which, the Group’s share of net profit (including other comprehensive income/loss) of Rs. 64 million for the year ended 31 March 2025 has been considered in the consolidated financial statements. The internal financial controls with reference to financial statements/information of the subsidiary company and associate company, which are companies covered under the Act, are unaudited and our opinion under Section 143(3)(i) of the Act on adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to the aforesaid subsidiary, and associate company , which are companies covered under the Act is solely based on the corresponding internal financial controls with reference to financial statements / information reports certified by the management of such companies. In our opinion and according to the information and explanations given to us by the management, these financial statements/information are not material to the Group. Our opinion is not modified in respect of the above matter with respect to our reliance on the internal financial controls with reference to financial statements / information reports certified by the management.

Disclosure of significant accounting policies [Text Block]

1. (a) General information

Flipkart Internet Private Limited was incorporated on October 01, 2012 as a private limited company under the Companies Act, 1956, (hereinafter referred to as "the Holding Company" or "the Parent"). The registered office of the Company is located at Buildings Alyssa, Begonia & Clover, Embassy Tech Village, Outer Ring Road, Devarabeesanahalli Village, Bengaluru – 560103, Karnataka, India. The holding company is Flipkart Marketplace Private Limited, Singapore and the ultimate holding company is Walmart Inc., U.S.A.. The Holding Company and its subsidiaries (collectively, "the Group") is engaged in the business of e-commerce, information technology enabled services, marketplace and related support services. The Holding Company is an Insurance Regulatory and Development Authority of India (IRDA) approved Corporate Agent and received CoR (Certificate of Registration) - CA0599 on September 26, 2018. The license is valid till September 25, 2027.

The Board of Directors of Flipkart Internet Private Limited had approved a Scheme of Amalgamation of Jade eServices Private Limited (Transferor Company) with the Transferee Company on November 24, 2020 with Appointed Date as April 01, 2021. The first motion petition and the second motion petition has been heard and approved by Hon'ble National Company Law Tribunal, Bengaluru Bench on March 11, 2022 and April 27, 2022 respectively. Likewise the petition filed by Jade eServices Private Limited was also heard and approved by the Hon'ble National Company Law Tribunal, New Delhi Bench on December 05, 2024. While passing the orders by the Hon'ble National Company Law Tribunals, two different dates were passed as appointed date i.e. NCLT New Delhi bench ordered the appointed date as April 01,2024, however appointed date approved by the NCLT Bengaluru bench was April 01, 2021, since there was inconsistency on the orders, necessary steps have been initiated for correcting the appointed date with NCLT Bengaluru bench in line with the orders of NCLT New Delhi Bench. Application is pending for orders, therefore no effect of the same has been provided in the books of accounts for the year ended March 31, 2025.

These Consolidated Financial Statements have been approved by the Board of Directors on a meeting held on June 11, 2025.

b. The Subsidiary/associates included in the Consolidated Financial Statements are as under:

Name of the company	Principal activities	Relationship	Proportion of ownership	
			March 31, 2025	March 31, 2024
ANS Digital Private Limited	Providing web store design & brand management services	Subsidiary	62.31%	62.31%
Easyrewardz Software Services Private Limited	Providing loyalty programs and customer relationship management services	Associate	16.32%	18.59%
Shadowfax Technologies Private Limited	Providing logistics services	Associate	15.71%	16.70%

The Group has prepared the Consolidated Financial Statements, including those of its subsidiary and associates, based on unaudited financial statements/financial information.

2. Summary of material accounting policies

2.1 Basis of preparation and measurement

The Consolidated Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS)

under the historical cost convention on the accrual basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments) and the provisions of the Companies Act, 2013 ("Act"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and presentation requirements of Division II of Schedule III to the Act, 2013, (Ind AS compliant Schedule III), as applicable to the Consolidated Financial Statements.

The Consolidated Financial Statements are presented in Indian Rupees (Rs.) and all values in the tables are reported in millions of Indian rupees except share data, unless otherwise stated. Certain notes and disclosures in the Consolidated Financial Statements has been represented as zero ("0"), where the absolute amount is below the rounding off norms adopted by the Group.

During the year ended March 31, 2025, the Group recorded losses amounting to Rs.14,942 (March 31, 2024: Rs.23,587) and has an accumulated loss of Rs.263,476.The Ultimate Holding Company has authorized Flipkart Group companies to access bank credit line on the basis of the Group's expected cash flows. This bank credit line enables the Holding Company to access funds as and when needed to meet its obligations that become due within the next 12 months.Thus, the financial statements have been prepared under the assumption that the Holding Company will continue its operations as a going concern.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The Consolidated financial statements comprise the financial statements of the Holding Company and its subsidiaries.

The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the Group's returns. The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements listed above. In assessing control, potential voting rights that currently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

"Non-controlling interest is the equity in a subsidiary not attributed to the owners of the parent and is presented separately.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies. All-intra-group assets and liabilities, equity, income, expenses and cash flows relating to the transactions between members of the Group are eliminated in full on consolidation."

"The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to the consolidated statement of profit or loss reflects the amount that arises from using this method.

Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted for as equity transactions, that is, as transactions with the owners in their capacity as owners. The carrying amount of the owners of the parent’s interest and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. The amount received from minority shareholders is reflected in non-controlling interest."

When the Group ceases to control (subsidiaries), exercise significant influence (associates) or exert joint control (joint ventures), any retained interest is remeasured to its fair value, with the change in the carrying value recognised in the consolidated statement of profit or loss. In addition, any amounts previously recognised in OCI in respect of de-consolidated entities are accounted for as if Group had directly disposed of related assets or liabilities.

2.2 Business Combination

Business combinations of entities under common control are accounted for by applying the guidance under Appendix C of Ind AS 103 - Business Combinations. In accordance with Ind AS 103, business combinations of entities under common control should be accounted for using the pooling of interest method.

2.3 Functional and Foreign currency

Functional and presentation currency

Management has determined the currency of the primary economic environment in which the entity resides in and operates as the functional currency. The functional currency of the Group is Indian Rupees (Rs.). The Consolidated Financial Statements have been presented in Rs. millions, as it best represents the operating business performance and underlying transactions.

Transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Group and are recorded on initial recognition in the functional currency at exchange rates prevailing at the transaction dates. Monetary assets and liabilities

denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period.

Differences arising on settlement or translation of monetary items are recognised in the Consolidated Statement of Profit and Loss.

2.4 Property, plant and equipment

(a) Recognition and measurement

All items of property, plant and equipment are initially measured at cost and subsequently are measured at cost less accumulated depreciation and impairment losses, if any. Costs include expenditures directly attributable to acquisition of assets. The cost of an item of property, plant and equipment are recognised as an asset, if and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Any subsequent cost incurred is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in Consolidated Statement of Profit and Loss as incurred.

(b) Depreciation

The Group depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Assets acquired under finance lease and leasehold improvements are amortised over the estimated useful life or the lease period, whichever is lower.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

The residual value, estimated useful life and method of depreciation of property, plant and equipment are reviewed at each financial year and adjusted prospectively, if appropriate. The estimated useful lives of assets are as follows:

Category of assets	Estimated useful life
Office equipment	5 years
Computers	3 years
Computer Servers (included under "Computers")	5 years
Furniture and fixtures	5 years
Plant and machinery	10 years
Lease hold improvements	3 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates the certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Act as already defined above. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on de-recognition of the asset is included in the Consolidated Statement of Profit and Loss in the year the asset is derecognised.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are

disclosed under ‘Capital work-in-progress’. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Consolidated Statement of

Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the Consolidated Financial Statements. upon sale or retirement of the asset and the resultant gains or losses are recognized in the Consolidated Statement of Profit and Loss.

2.5 Goodwill and Intangible assets

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired in a business combination. If the excess is negative, a bargain purchase gain is recognized immediately in OCI and accumulated in equity as capital reserve.

Goodwill is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The goodwill impairment test is performed at the level of cash-generating unit (CGU) or groups of cash-generating units which represent the lowest level at which goodwill is monitored for internal management purposes and which is not higher than the Group's operating segment. The recoverable amount of the CGU is measured based on its value in use. The value in use is determined based on discounted cash flow projections.

Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in the Consolidated Statement of Profit and Loss. Impairment losses recognised for goodwill are not reversed in subsequent periods.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets acquired in business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the Consolidated Statement of Profit and Loss when it is incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate.

Intangible assets with indefinite useful lives or not yet available are not amortised, but instead tested for impairment annually. Intangible assets with finite lives are amortised over the estimated useful life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. The amortisation expense on intangible assets with finite lives is recognised in the Consolidated Statement of Profit and Loss in the expense category consistent with the nature of the intangible assets.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

The useful lives of the intangible assets assessed by the management are as follows and these amortized on a straight-line basis over the period of the assets:

Category of assets	Estimated useful life
Computer software	1-3 years
Internally generated softwares	2 years
Customer database	5 years
Trademarks	3 - 10 years

2.6 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments in the form of financial assets and financial liabilities are generally presented separately. Financial instruments are recognized on the Balance Sheet when the Group becomes a party to the

contractual provisions of the instrument.

Financial assets are classified into following categories:

'- Financial assets carried at amortised cost

- Financial assets fair valued through other comprehensive income (FVTOCI)

- Financial assets at fair value through profit or loss (FVTPL)

Financial liabilities are classified into financial liabilities at fair value through Statement of Profit and Loss and other financial liabilities.

Financial assets

Financial assets primarily comprise of trade receivables, loan and receivables, cash and cash equivalents, marketable securities and investments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it meets both the following criteria:

(i) the asset is held within a business model whose objective is to hold the asset to collect contractual cash flows, and

(ii) the contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it meets both the following criteria:

(i) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and

(ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Further, in cases where the Group has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income. For Financial assets at FVTOCI, all fair value changes in the instruments excluding dividends, are recognised in OCI and is never recycled to the Consolidated Statement of Profit and Loss, even on sale of the instrument. Interest income earned on FVTOCI instruments are recognised in the Consolidated Statement of Profit and Loss.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which does not meet the amortised cost or FVTOCI criteria is measured as FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses on re-measurement recognised in the Consolidated Statement of Profit and Loss. The gain or loss on disposal is recognised in the Consolidated Statement of Profit and Loss. Interest income earned on FVTPL instruments are recognised in the Consolidated Statement of Profit and Loss.

Financial liabilities

Financial liabilities primarily include trade payables, loans and borrowings and other liabilities are measured at fair value on initial recognition.

2.6 Financial Instruments (cont'd)

Financial liabilities measured at amortized cost

After initial recognition, financial liabilities are subsequently measured at amortized cost using the effective interest method, except for contingent considerations recognized in a business combination which is subsequently measured at FVTPL. For borrowings, trade and other payables, the carrying amounts approximate fair value due to the short term maturity of these instruments.

De-recognition of financial assets and liabilities

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the

Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the

transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On de-recognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Consolidated Statement of Profit and Loss. In addition, on de-recognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on de-recognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to the Consolidated Statement of Profit and Loss, but is transferred to retained earnings.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in the Consolidated Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the Balance Sheet only if there is a current enforceable legal right to offset the recognised amounts and an intent to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.7 Impairment

Financial assets

Ind AS 109 requires the Group to record expected credit losses on all of its debt securities, loans and receivables, either on a 12-month or lifetime expected credit losses. The Group recognises loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivable with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to 12-month ECL, unless there is a significant increase in the credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Consolidated Statement of Profit and Loss.

Non - financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Goodwill and intangible assets with indefinite economic lives are tested for impairment annually and at other times when such indicators exist.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

2.8 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, demand deposits, and short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group’s cash management.

2.9 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. The expense relating to a provision is presented in the Consolidated Statement of Profit and Loss net of any reimbursement.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.10 Employee benefits

Short-Term Employee Benefits

The costs of all short-term employee benefits (that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service) are recognised during the period in which the employee renders the related service. The accruals for employee entitlements to benefits such as salaries, bonuses and annual leave represent the amounts which the Group has a present obligation to pay as a result of the employee's services and the obligation can be measured reliably. The accruals have been calculated at undiscounted amounts based on current salary levels at the Balance Sheet date.

Defined benefit plan

In accordance with applicable laws in India, the Group provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") for every employee who has completed 5 years or more of service on departure at 15 days salary (last drawn salary). The Gratuity Plan provides for a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment based on last drawn salary and tenure of employment with the Group. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation on the reporting date using projected unit credit method. The gratuity scheme is not funded.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding net interest and the return on plan assets (excluding net interest), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the Consolidated Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in income statement on the earlier of:

- The date of the plan amendment or curtailment, and

- The date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements under employee benefit expenses in the Consolidated Statement of Profit and Loss. The net interest on net defined benefit liability which reflects the change in net defined benefit liability that arises from the passage of time are presented as a finance cost.

All actuarial gains and losses are immediately recognized in other comprehensive income, net of taxes, if any, and permanently excluded from Statement of Profit and Loss.

Defined contribution plan

The Group makes contributions to the Provident Fund scheme, a defined contribution benefit scheme. These contributions are deposited with Government administered fund and recognised as an expense in the period in which the related service is performed. There is no further obligation on the Group on this defined contribution plan.

Compensated Absences

Employee entitlements to annual leave are recognised as a liability when they accrue to the employees. The estimated liability for leave is recognised for services rendered by employees up to the end of the reporting period.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group presents the entire leave as a current liability since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Employee share option plans ('ESOP')

Flipkart Private Limited, Singapore (Intermediate Holding Company) operates ESOP for its group entities which has equity settled and cash settled components. The Group recognises the cost and corresponding liability based on the advice

received from Flipkart Private Limited, Singapore.

i) Equity settled component

The cost of equity settled share-based payment transactions with employees is measured by reference to the fair value of the options using option pricing model at the date on which the options are granted which takes into account market conditions and non-vesting conditions.

ii) Cash settled component

The cost of cash settled share-based payment transactions is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense.

The fair value is expensed over the period until the vesting date with recognition of a corresponding liability to pay the Intermediate Holding Company.

Stock Appreciation Rights ('SARs')

The cost of these cash settled share-based payment transactions is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense.

2.11 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Category of assets	Estimated useful life
Buildings	10 years
Data center premises	5 years
Motor vehicles	2- 4 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

2.12 Revenue from contracts with customers

Revenue is measured based on the amount of consideration that the Group expect to receive, reduced by estimates for return allowances and promotional discounts. Revenue also excludes any amounts collected on behalf of third parties, including sales and goods and service taxes.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue. Group provides incentives to customers in the form of discounts.

The Group may provide refunds/credits to customers as reversal of certain fees. Refunds/credits are accounted for as variable consideration at contract inception when estimating the amount of revenue to be recognised when a performance obligation is satisfied to the extent that it is probable that a significant reversal of revenue will not occur and updated as additional information becomes available.

Unbilled revenues are presented as trade receivables when the Group’s right to consideration is unconditional, which is the case when only the passage of time is required before payment of the consideration is due. A contract liability is the obligation to transfer services to a customer for which the Group has received consideration from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Group performs under the contract.

Rendering of services

The following is a description of principal activities from which the Group generates its revenue:

Income from marketplace services

The Group's marketplace service generates revenue primarily from transaction fee paid by vendors in marketplace. Revenue related to transaction fees and any related fulfilment fees earned from these arrangements are recognised when the services are rendered, which generally happens at the time underlying sales has been concluded.

Income from collection services

Revenue from payment processing transactions is based upon a fixed percentage applied to the transaction value and is recognized on successful completion of services. Services are said to be successfully completed on dispatch of goods for prepaid orders and on delivery and collection of amounts on post-paid orders.

Income from logistics services

Income from logistics services include shipping services. Revenue from shipping services is recognised at a point in time.

Income from storage services

Income from storage services include warehousing services. Revenue from warehousing services is recognised over the period of such services.

Income from advertisement services

Income from advertisement services are recognized based on the number of cost per day, clicks (which are generated each time users on its platforms click through our advertisements to an advertiser’s designated website) or impressions (i.e., the number of times that an advertisement appears in pages viewed by users of our platforms). The Group use the output method and apply the practical expedient to recognize advertising revenue in the amount to which the Group have a right to invoice.

2.12 Revenue from contracts with customers (cont'd)

Other operating revenues

Other operating revenues are recognised on an accrual basis as and when the services are rendered.

Interest income

Interest income is recognised using the effective interest method. Effective interest is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in finance income in the Consolidated Statement of Profit and Loss. Finance income primarily comprises of interest income on fixed deposits, changes in fair value and gains/(losses) on disposal of financial instruments classified as FVTPL.

2.13 Finance Cost

Finance expenses comprise interest cost on borrowings. Borrowing costs that are directly attributable to a qualifying asset are capitalised as part of cost of the asset. All other borrowing cost are expensed in the period in which they occur, using the effective interest method.

2.14 Taxes

Direct tax comprises of current and deferred tax. Direct tax expense is recognized in the Consolidated Statement of Profit and Loss except to the extent it relates to a business combination, or items directly recognized in equity or in Other Comprehensive Income.

Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and liability simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation, and it establishes provisions where appropriate.

Deferred tax

Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in Consolidated Financial Statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside Statement of Profit and Loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

The Group offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

2.15 Contingencies

A contingent liability is:

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or A present obligation that arises from past events but is not recognised because:

(i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

(ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the Balance Sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations arising from past events and which the fair values can be

reliably determined.

2.16 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) attributable to ordinary equity holders of the Group by weighted average number of equity shares outstanding during the period adjusted for treasury shares held, if any. Diluted earnings per share is computed by dividing the profit / (loss) attributable to ordinary equity holders of the Group using the weighted-average number of equity shares considered for deriving basic earnings per share and weighted average number of dilutive equivalent shares outstanding during the period, except where the results would be anti-dilutive. Dilutive potential shares are deemed converted at the beginning of the period, unless issued at later date.

2.17 Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in its associates are accounted at cost, net of impairment, if any.

2.18 Fair value measurement

A number of financial instruments are measured at fair value as of each reporting date after initial recognition. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest by using quoted market rates, discounted cash flow analyses and other appropriate valuation models. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair values are being measured or disclosed in the Consolidated Financial Statements are categorized within the fair value hierarchy, described as follows:

• Level 1– This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

• Level 2 – This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

• Level 3 – This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.19 Cash flow statements

Cash flows are reported using the indirect method, whereby profit/(loss) for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

As per the amendment to Ind AS 7, applicable with effect from April 1, 2017, the Group provides disclosures that enable users of these Consolidated Financial Statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Group has provided the information for the current year in Note 10 (i).

2.20 Current and non-current classification

The Group prepares assets and liabilities in the Balance Sheet based on current and non-current classification.

An asset is classified as current when:

- It is expected to be realized or consumed in the Group's normal operating cycle.

- It is held primarily for trading.

- It is expected to be realized within twelve months after the reporting period.

- If it is cash or cash equivalents, unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-.current.

A liability is current when:

- The Group has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

- It is held primarily for trading.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.21 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group is engaged in the e-commerce marketplace which constitutes its single reportable segment. The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management reporting structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive management in deciding how to allocate resources and in assessing performance. The accounting policies adopted for segment reporting are in line with the accounting policies of the Group.

3.1 Significant accounting estimates and judgements

The preparation of the Group's Consolidated Financial Statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the reporting period. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in these Consolidated Financial Statements are included in the following notes:

(a) Customer loyalty programme

The Group operates a customer loyalty programme whereby end users earn reward points when they purchase products through the Group’s platform. The points can be redeemed on future purchases and expire if not redeemed within specified timeframes. Determining whether such loyalty points provide the customer with a material right requires judgement. The transaction price is allocated to products and the reward points based on a relative stand-alone selling price basis. The Management determines the stand-alone selling price of the rewards points based on the residual method.The same is disclosed as business promotion expense.

(b) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

(c) Revenue from contracts with customers

The Group estimates commission reversal on the returns of products sold by the sellers on the platform on the basis of historical trends of returns from the customers for each product category. Estimates of returns are revised when the Group believes that changes in the policies for returns or external factors will significantly affect the amounts recorded for return assets and refund liabilities.

(d) Expected credit losses on financial assets

On application of Ind AS 109, the impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, customer’s credit-worthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

(e) Impairment of intangible assets

The recoverable amounts of the cash generating units which goodwill has been allocated to have been determined based on value in use calculations. The value in use calculations are based on a discounted cash flow models. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

3.1 Significant accounting estimates and judgements (cont'd)

(f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next twenty seven years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

(g) Employees benefits plan

The cost of defined benefit pensions and other postretirement plans as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, expected rates of return of assets, future salary increase, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions, defined benefit obligations are highly sensitive to changes in these assumptions.

(h) Income taxes

The Group has exposure to income taxes in Indian jurisdiction. Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant managements judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Considering the cumulative tax positions and considering the loss for the year, the Group has not recognised deferred tax assets on the losses.

(i) Seller protection fund ('SPF')

Provision for seller protection fund is estimated by computing a SPF pay-out based on the average rate of return for three months of the previous quarter. These claims are expected to be settled in the next financial year. Management estimates the provision based on historical claims information and any recent trends that may suggest future claims could differ from historical amounts.

(j) Other estimates

The preparation of these Consolidated Financial Statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of Consolidated Financial Statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Group estimates the un-collectability of accounts receivable by analysing historical payment patterns, customer concentrations, customer credit worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

3.2 New Pronouncements

"Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

(i) Ind AS 117 Insurance Contracts

The Ministry of Corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated August 12, 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 01, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

• A specific adaptation for contracts with direct participation features (the variable fee approach)

• A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 does not have material impact on the Company's separate financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117."

"(ii) Amendments to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback. The amendment specifies the requirements that a

seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. The amendment is effective for annual reporting periods beginning on or after April 01, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116. The amendments do not have a material impact on the Company's separate financial statements. "

1. (a) General information

Flipkart Internet Private Limited was incorporated on October 01, 2012 as a private limited company under the Companies Act, 1956, (hereinafter referred to as "the Holding Company" or "the Parent"). The registered office of the Company is located at Buildings Alyssa, Begonia & Clover, Embassy Tech Village, Outer Ring Road, Devarabeesanahalli Village, Bengaluru – 560103, Karnataka, India. The holding company is Flipkart Marketplace Private Limited, Singapore and the ultimate holding company is Walmart Inc., U.S.A.. The Holding Company and its subsidiaries (collectively, "the Group") is engaged in the business of e-commerce, information technology enabled services, marketplace and related support services. The Holding Company is an Insurance Regulatory and Development Authority of India (IRDA) approved Corporate Agent and received CoR (Certificate of Registration) - CA0599 on September 26, 2018. The license is valid till September 25, 2027.

The Board of Directors of Flipkart Internet Private Limited had approved a Scheme of Amalgamation of Jade eServices Private Limited (Transferor Company) with the Transferee Company on November 24, 2020 with Appointed Date as April 01, 2021. The first motion petition and the second motion petition has been heard and approved by Hon'ble National Company Law Tribunal, Bengaluru Bench on March 11, 2022 and April 27, 2022 respectively. Likewise the petition filed by Jade eServices Private Limited was also heard and approved by the Hon'ble National Company Law Tribunal, New Delhi Bench on December 05, 2024. While passing the orders by the Hon'ble National Company Law Tribunals, two different dates were passed as appointed date i.e. NCLT New Delhi bench ordered the appointed date as April 01,2024, however appointed date approved by the NCLT Bengaluru bench was April 01, 2021, since there was inconsistency on the orders, necessary steps have been initiated for correcting the appointed date with NCLT Bengaluru bench in line with the orders of NCLT New Delhi Bench. Application is pending for orders, therefore no effect of the same has been provided in the books of accounts for the year ended March 31, 2025.

These Consolidated Financial Statements have been approved by the Board of Directors on a meeting held on June 11, 2025.

b. The Subsidiary/associates included in the Consolidated Financial Statements are as under:

Name of the company	Principal activities	Relationship	Proportion of ownership	
			March 31, 2025	March 31, 2024
ANS Digital Private Limited	Providing web store design & brand management services	Subsidiary	62.31%	62.31%
Easyrewardz Software Services Private Limited	Providing loyalty programs and customer relationship management services	Associate	16.32%	18.59%
Shadowfax Technologies Private Limited	Providing logistics services	Associate	15.71%	16.70%

The Group has prepared the Consolidated Financial Statements, including those of its subsidiary and associates, based on unaudited financial statements/financial information.

2. Summary of material accounting policies

2.1 Basis of preparation and measurement

The Consolidated Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS)

under the historical cost convention on the accrual basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments) and the provisions of the Companies Act, 2013 ("Act"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time and presentation requirements of Division II of Schedule III to the Act, 2013, (Ind AS compliant Schedule III), as applicable to the Consolidated Financial Statements.

The Consolidated Financial Statements are presented in Indian Rupees (Rs.) and all values in the tables are reported in millions of Indian rupees except share data, unless otherwise stated. Certain notes and disclosures in the Consolidated Financial Statements has been represented as zero ("0"), where the absolute amount is below the rounding off norms adopted by the Group.

During the year ended March 31, 2025, the Group recorded losses amounting to Rs.14,942 (March 31, 2024: Rs.23,587) and has an accumulated loss of Rs.263,476.The Ultimate Holding Company has authorized Flipkart Group companies to access bank credit line on the basis of the Group's expected cash flows. This bank credit line enables the Holding Company to access funds as and when needed to meet its obligations that become due within the next 12 months.Thus, the financial statements have been prepared under the assumption that the Holding Company will continue its operations as a going concern.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The Consolidated financial statements comprise the financial statements of the Holding Company and its subsidiaries.

The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, which significantly affect the Group's returns. The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements listed above. In assessing control, potential voting rights that currently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

"Non-controlling interest is the equity in a subsidiary not attributed to the owners of the parent and is presented separately.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies. All-intra-group assets and liabilities, equity, income, expenses and cash flows relating to the transactions between members of the Group are eliminated in full on consolidation."

"The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to the consolidated statement of profit or loss reflects the amount that arises from using this method.

Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted for as equity transactions, that is, as transactions with the owners in their capacity as owners. The carrying amount of the owners of the parent’s interest and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. The amount received from minority shareholders is reflected in non-controlling interest."

When the Group ceases to control (subsidiaries), exercise significant influence (associates) or exert joint control (joint ventures), any retained interest is remeasured to its fair value, with the change in the carrying value recognised in the consolidated statement of profit or loss. In addition, any amounts previously recognised in OCI in respect of de-consolidated entities are accounted for as if Group had directly disposed of related assets or liabilities.

2.2 Business Combination

Business combinations of entities under common control are accounted for by applying the guidance under Appendix C of Ind AS 103 - Business Combinations. In accordance with Ind AS 103, business combinations of entities under common control should be accounted for using the pooling of interest method.

2.3 Functional and Foreign currency

Functional and presentation currency

Management has determined the currency of the primary economic environment in which the entity resides in and operates as the functional currency. The functional currency of the Group is Indian Rupees (Rs.). The Consolidated Financial Statements have been presented in Rs. millions, as it best represents the operating business performance and underlying transactions.

Transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Group and are recorded on initial recognition in the functional currency at exchange rates prevailing at the transaction dates. Monetary assets and liabilities

denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period.

Differences arising on settlement or translation of monetary items are recognised in the Consolidated Statement of Profit and Loss.

2.4 Property, plant and equipment

(a) Recognition and measurement

All items of property, plant and equipment are initially measured at cost and subsequently are measured at cost less accumulated depreciation and impairment losses, if any. Costs include expenditures directly attributable to acquisition of assets. The cost of an item of property, plant and equipment are recognised as an asset, if and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Any subsequent cost incurred is recognised in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in Consolidated Statement of Profit and Loss as incurred.

(b) Depreciation

The Group depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Assets acquired under finance lease and leasehold improvements are amortised over the estimated useful life or the lease period, whichever is lower.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

The residual value, estimated useful life and method of depreciation of property, plant and equipment are reviewed at each financial year and adjusted prospectively, if appropriate. The estimated useful lives of assets are as follows:

Category of assets	Estimated useful life
Office equipment	5 years
Computers	3 years
Computer Servers (included under "Computers")	5 years
Furniture and fixtures	5 years
Plant and machinery	10 years
Lease hold improvements	3 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates the certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Act as already defined above. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on de-recognition of the asset is included in the Consolidated Statement of Profit and Loss in the year the asset is derecognised.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are

disclosed under ‘Capital work-in-progress’. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Consolidated Statement of

Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the Consolidated Financial Statements. upon sale or retirement of the asset and the resultant gains or losses are recognized in the Consolidated Statement of Profit and Loss.

2.5 Goodwill and Intangible assets

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired in a business combination. If the excess is negative, a bargain purchase gain is recognized immediately in OCI and accumulated in equity as capital reserve.

Goodwill is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The goodwill impairment test is performed at the level of cash-generating unit (CGU) or groups of cash-generating units which represent the lowest level at which goodwill is monitored for internal management purposes and which is not higher than the Group's operating segment. The recoverable amount of the CGU is measured based on its value in use. The value in use is determined based on discounted cash flow projections.

Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in the Consolidated Statement of Profit and Loss. Impairment losses recognised for goodwill are not reversed in subsequent periods.

Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets acquired in business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the Consolidated Statement of Profit and Loss when it is incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which they relate.

Intangible assets with indefinite useful lives or not yet available are not amortised, but instead tested for impairment annually. Intangible assets with finite lives are amortised over the estimated useful life. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. The amortisation expense on intangible assets with finite lives is recognised in the Consolidated Statement of Profit and Loss in the expense category consistent with the nature of the intangible assets.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

The useful lives of the intangible assets assessed by the management are as follows and these amortized on a straight-line basis over the period of the assets:

Category of assets	Estimated useful life
Computer software	1-3 years
Internally generated softwares	2 years
Customer database	5 years
Trademarks	3 - 10 years

2.6 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments in the form of financial assets and financial liabilities are generally presented separately. Financial instruments are recognized on the Balance Sheet when the Group becomes a party to the

contractual provisions of the instrument.

Financial assets are classified into following categories:

'- Financial assets carried at amortised cost

- Financial assets fair valued through other comprehensive income (FVTOCI)

- Financial assets at fair value through profit or loss (FVTPL)

Financial liabilities are classified into financial liabilities at fair value through Statement of Profit and Loss and other financial liabilities.

Financial assets

Financial assets primarily comprise of trade receivables, loan and receivables, cash and cash equivalents, marketable securities and investments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it meets both the following criteria:

(i) the asset is held within a business model whose objective is to hold the asset to collect contractual cash flows, and

(ii) the contractual terms of the financial assets give rise on a specified date to cash flows that are solely payments of principal and interest on the principal outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it meets both the following criteria:

(i) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and

(ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Further, in cases where the Group has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income. For Financial assets at FVTOCI, all fair value changes in the instruments excluding dividends, are recognised in OCI and is never recycled to the Consolidated Statement of Profit and Loss, even on sale of the instrument. Interest income earned on FVTOCI instruments are recognised in the Consolidated Statement of Profit and Loss.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which does not meet the amortised cost or FVTOCI criteria is measured as FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses on re-measurement recognised in the Consolidated Statement of Profit and Loss. The gain or loss on disposal is recognised in the Consolidated Statement of Profit and Loss. Interest income earned on FVTPL instruments are recognised in the Consolidated Statement of Profit and Loss.

Financial liabilities

Financial liabilities primarily include trade payables, loans and borrowings and other liabilities are measured at fair value on initial recognition.

2.6 Financial Instruments (cont'd)

Financial liabilities measured at amortized cost

After initial recognition, financial liabilities are subsequently measured at amortized cost using the effective interest method, except for contingent considerations recognized in a business combination which is subsequently measured at FVTPL. For borrowings, trade and other payables, the carrying amounts approximate fair value due to the short term maturity of these instruments.

De-recognition of financial assets and liabilities

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the

Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the

transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On de-recognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Consolidated Statement of Profit and Loss. In addition, on de-recognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on de-recognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to the Consolidated Statement of Profit and Loss, but is transferred to retained earnings.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in the Consolidated Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the Balance Sheet only if there is a current enforceable legal right to offset the recognised amounts and an intent to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.7 Impairment

Financial assets

Ind AS 109 requires the Group to record expected credit losses on all of its debt securities, loans and receivables, either on a 12-month or lifetime expected credit losses. The Group recognises loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivable with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to 12-month ECL, unless there is a significant increase in the credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Consolidated Statement of Profit and Loss.

Non - financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Goodwill and intangible assets with indefinite economic lives are tested for impairment annually and at other times when such indicators exist.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

2.8 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, demand deposits, and short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group’s cash management.

2.9 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. The expense relating to a provision is presented in the Consolidated Statement of Profit and Loss net of any reimbursement.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.10 Employee benefits

Short-Term Employee Benefits

The costs of all short-term employee benefits (that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service) are recognised during the period in which the employee renders the related service. The accruals for employee entitlements to benefits such as salaries, bonuses and annual leave represent the amounts which the Group has a present obligation to pay as a result of the employee's services and the obligation can be measured reliably. The accruals have been calculated at undiscounted amounts based on current salary levels at the Balance Sheet date.

Defined benefit plan

In accordance with applicable laws in India, the Group provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") for every employee who has completed 5 years or more of service on departure at 15 days salary (last drawn salary). The Gratuity Plan provides for a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment based on last drawn salary and tenure of employment with the Group. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation on the reporting date using projected unit credit method. The gratuity scheme is not funded.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding net interest and the return on plan assets (excluding net interest), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the Consolidated Statement of Profit and Loss in subsequent periods.

Past service costs are recognised in income statement on the earlier of:

- The date of the plan amendment or curtailment, and

- The date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements under employee benefit expenses in the Consolidated Statement of Profit and Loss. The net interest on net defined benefit liability which reflects the change in net defined benefit liability that arises from the passage of time are presented as a finance cost.

All actuarial gains and losses are immediately recognized in other comprehensive income, net of taxes, if any, and permanently excluded from Statement of Profit and Loss.

Defined contribution plan

The Group makes contributions to the Provident Fund scheme, a defined contribution benefit scheme. These contributions are deposited with Government administered fund and recognised as an expense in the period in which the related service is performed. There is no further obligation on the Group on this defined contribution plan.

Compensated Absences

Employee entitlements to annual leave are recognised as a liability when they accrue to the employees. The estimated liability for leave is recognised for services rendered by employees up to the end of the reporting period.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group presents the entire leave as a current liability since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Employee share option plans ('ESOP')

Flipkart Private Limited, Singapore (Intermediate Holding Company) operates ESOP for its group entities which has equity settled and cash settled components. The Group recognises the cost and corresponding liability based on the advice

received from Flipkart Private Limited, Singapore.

i) Equity settled component

The cost of equity settled share-based payment transactions with employees is measured by reference to the fair value of the options using option pricing model at the date on which the options are granted which takes into account market conditions and non-vesting conditions.

ii) Cash settled component

The cost of cash settled share-based payment transactions is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense.

The fair value is expensed over the period until the vesting date with recognition of a corresponding liability to pay the Intermediate Holding Company.

Stock Appreciation Rights ('SARs')

The cost of these cash settled share-based payment transactions is measured initially and at each reporting date up to and including the settlement date, with changes in fair value recognised in employee benefits expense.

2.11 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Category of assets	Estimated useful life
Buildings	10 years
Data center premises	5 years
Motor vehicles	2- 4 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

2.12 Revenue from contracts with customers

Revenue is measured based on the amount of consideration that the Group expect to receive, reduced by estimates for return allowances and promotional discounts. Revenue also excludes any amounts collected on behalf of third parties, including sales and goods and service taxes.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue. Group provides incentives to customers in the form of discounts.

The Group may provide refunds/credits to customers as reversal of certain fees. Refunds/credits are accounted for as variable consideration at contract inception when estimating the amount of revenue to be recognised when a performance obligation is satisfied to the extent that it is probable that a significant reversal of revenue will not occur and updated as additional information becomes available.

Unbilled revenues are presented as trade receivables when the Group’s right to consideration is unconditional, which is the case when only the passage of time is required before payment of the consideration is due. A contract liability is the obligation to transfer services to a customer for which the Group has received consideration from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Group performs under the contract.

Rendering of services

The following is a description of principal activities from which the Group generates its revenue:

Income from marketplace services

The Group's marketplace service generates revenue primarily from transaction fee paid by vendors in marketplace. Revenue related to transaction fees and any related fulfilment fees earned from these arrangements are recognised when the services are rendered, which generally happens at the time underlying sales has been concluded.

Income from collection services

Revenue from payment processing transactions is based upon a fixed percentage applied to the transaction value and is recognized on successful completion of services. Services are said to be successfully completed on dispatch of goods for prepaid orders and on delivery and collection of amounts on post-paid orders.

Income from logistics services

Income from logistics services include shipping services. Revenue from shipping services is recognised at a point in time.

Income from storage services

Income from storage services include warehousing services. Revenue from warehousing services is recognised over the period of such services.

Income from advertisement services

Income from advertisement services are recognized based on the number of cost per day, clicks (which are generated each time users on its platforms click through our advertisements to an advertiser’s designated website) or impressions (i.e., the number of times that an advertisement appears in pages viewed by users of our platforms). The Group use the output method and apply the practical expedient to recognize advertising revenue in the amount to which the Group have a right to invoice.

2.12 Revenue from contracts with customers (cont'd)

Other operating revenues

Other operating revenues are recognised on an accrual basis as and when the services are rendered.

Interest income

Interest income is recognised using the effective interest method. Effective interest is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in finance income in the Consolidated Statement of Profit and Loss. Finance income primarily comprises of interest income on fixed deposits, changes in fair value and gains/(losses) on disposal of financial instruments classified as FVTPL.

2.13 Finance Cost

Finance expenses comprise interest cost on borrowings. Borrowing costs that are directly attributable to a qualifying asset are capitalised as part of cost of the asset. All other borrowing cost are expensed in the period in which they occur, using the effective interest method.

2.14 Taxes

Direct tax comprises of current and deferred tax. Direct tax expense is recognized in the Consolidated Statement of Profit and Loss except to the extent it relates to a business combination, or items directly recognized in equity or in Other Comprehensive Income.

Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and liability simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation, and it establishes provisions where appropriate.

Deferred tax

Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in Consolidated Financial Statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction. Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside Statement of Profit and Loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

The Group offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

2.15 Contingencies

A contingent liability is:

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or A present obligation that arises from past events but is not recognised because:

(i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

(ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the Balance Sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations arising from past events and which the fair values can be

reliably determined.

2.16 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) attributable to ordinary equity holders of the Group by weighted average number of equity shares outstanding during the period adjusted for treasury shares held, if any. Diluted earnings per share is computed by dividing the profit / (loss) attributable to ordinary equity holders of the Group using the weighted-average number of equity shares considered for deriving basic earnings per share and weighted average number of dilutive equivalent shares outstanding during the period, except where the results would be anti-dilutive. Dilutive potential shares are deemed converted at the beginning of the period, unless issued at later date.

2.17 Investment in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in its associates are accounted at cost, net of impairment, if any.

2.18 Fair value measurement

A number of financial instruments are measured at fair value as of each reporting date after initial recognition. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest by using quoted market rates, discounted cash flow analyses and other appropriate valuation models. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair values are being measured or disclosed in the Consolidated Financial Statements are categorized within the fair value hierarchy, described as follows:

• Level 1– This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

• Level 2 – This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

• Level 3 – This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.19 Cash flow statements

Cash flows are reported using the indirect method, whereby profit/(loss) for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

As per the amendment to Ind AS 7, applicable with effect from April 1, 2017, the Group provides disclosures that enable users of these Consolidated Financial Statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The Group has provided the information for the current year in Note 10 (i).

2.20 Current and non-current classification

The Group prepares assets and liabilities in the Balance Sheet based on current and non-current classification.

An asset is classified as current when:

- It is expected to be realized or consumed in the Group's normal operating cycle.

- It is held primarily for trading.

- It is expected to be realized within twelve months after the reporting period.

- If it is cash or cash equivalents, unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-.current.

A liability is current when:

- The Group has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

- It is held primarily for trading.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.21 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group is engaged in the e-commerce marketplace which constitutes its single reportable segment. The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organization and management reporting structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive management in deciding how to allocate resources and in assessing performance. The accounting policies adopted for segment reporting are in line with the accounting policies of the Group.

3.1 Significant accounting estimates and judgements

The preparation of the Group's Consolidated Financial Statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the reporting period. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in these Consolidated Financial Statements are included in the following notes:

(a) Customer loyalty programme

The Group operates a customer loyalty programme whereby end users earn reward points when they purchase products through the Group’s platform. The points can be redeemed on future purchases and expire if not redeemed within specified timeframes. Determining whether such loyalty points provide the customer with a material right requires judgement. The transaction price is allocated to products and the reward points based on a relative stand-alone selling price basis. The Management determines the stand-alone selling price of the rewards points based on the residual method.The same is disclosed as business promotion expense.

(b) Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

(c) Revenue from contracts with customers

The Group estimates commission reversal on the returns of products sold by the sellers on the platform on the basis of historical trends of returns from the customers for each product category. Estimates of returns are revised when the Group believes that changes in the policies for returns or external factors will significantly affect the amounts recorded for return assets and refund liabilities.

(d) Expected credit losses on financial assets

On application of Ind AS 109, the impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, customer’s credit-worthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

(e) Impairment of intangible assets

The recoverable amounts of the cash generating units which goodwill has been allocated to have been determined based on value in use calculations. The value in use calculations are based on a discounted cash flow models. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

3.1 Significant accounting estimates and judgements (cont'd)

(f) Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next twenty seven years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

(g) Employees benefits plan

The cost of defined benefit pensions and other postretirement plans as well as the present value of the pension obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, expected rates of return of assets, future salary increase, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions, defined benefit obligations are highly sensitive to changes in these assumptions.

(h) Income taxes

The Group has exposure to income taxes in Indian jurisdiction. Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant managements judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Considering the cumulative tax positions and considering the loss for the year, the Group has not recognised deferred tax assets on the losses.

(i) Seller protection fund ('SPF')

Provision for seller protection fund is estimated by computing a SPF pay-out based on the average rate of return for three months of the previous quarter. These claims are expected to be settled in the next financial year. Management estimates the provision based on historical claims information and any recent trends that may suggest future claims could differ from historical amounts.

(j) Other estimates

The preparation of these Consolidated Financial Statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of Consolidated Financial Statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Group estimates the un-collectability of accounts receivable by analysing historical payment patterns, customer concentrations, customer credit worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

3.2 New Pronouncements

"Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

(i) Ind AS 117 Insurance Contracts

The Ministry of Corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated August 12, 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after April 01, 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

• A specific adaptation for contracts with direct participation features (the variable fee approach)

• A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 does not have material impact on the Company's separate financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117."

"(ii) Amendments to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback. The amendment specifies the requirements that a

seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. The amendment is effective for annual reporting periods beginning on or after April 01, 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116. The amendments do not have a material impact on the Company's separate financial statements. "

**Technology includes non-compete fees and brand name.

***The management has identified the Group as a whole as one CGU.

Goodwill is tested for impairment annually in accordance with the Holding Company's procedure for determining the recoverable value. For the purpose of impairment testing, goodwill is allocated to a CGU or a Group of CGU's representing the lowest level within the Group at which goodwill is monitored for internal management purposes, and which is not higher than the Company's operating segments. The recoverable amount of the CGU or Group of CGU's has been measured based on their value in use. The value in use is determined based on discounted cash flow projections.

If value in use indicates impairment, fair value less cost to sell is also determined. The Group uses higher of the two values to determine whether any impairment needs to be recognised.

"Key assumptions basis which the Group has based its determination of value in use includes:

- Estimated cash flow of 5 years based on formal/ approved internal management budgets with extrapolation for the remaining period, wherever the budgets were shorter than 5 years' period.

- The cash flow has been extrapolated for the next 19 years based on the estimated cash flows of initial 5 years

- Terminal value arrived by extrapolating last forecasted year cash flow to perpetuity using long term growth rates. These long-term growth rates take into consideration external macroeconomics sources of data.

- The discount rates used are based on the respective CGU's weighted average cost of capital. The management also believes there is no major change in environment where the respective CGU operates.

- Value in use is calculated using after tax assumptions. The use of after-tax assumptions does not result in a value in use that is materially different from the value in use that would result if the calculation was performed using before tax assumption."

List of key assumptions used in the value in use calculations for each of the CGU's are as given below.

Assumptions

	For the year ended	For the year ended
	March 31, 2025	March 31, 2024

Long term growth rate	5%	5%
Discount rate	15.0%	18.5%

An analysis of the calculation's sensitivity to a change in the key parameters (discount rate and long-term growth rate) based on reasonably probable assumptions, did not identify any probable scenarios where the remaining CGU's recoverable amount would fall below its carrying amount.

Balance as at the end of the year	(2,63,476)	(2,48,728)

Nature and purpose of reserves:

Capital reserve

The Group recognises profit and loss on purchase, sale, issue or cancellation of the Group's own equity instruments to capital reserve.

Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares and cost pertaining to issue of shares in accordance with the provisions of the Companies Act, 2013.

Retained earnings

All the profit or losses made by the Group are transferred to retained earnings from Consolidated Statement of Profit and Loss.

Textual information (10)

Disclosure of income tax [Text Block]

8. Income tax

The Group has no taxable income for the financial years March 31, 2025 and March 31, 2024 and accordingly, no provision for taxation has been made.

a) Reconciliation of tax expenses and accounting loss

	As at March 31, 2025	As at March 31, 2024
Accounting losses before taxes	(14,963)	(23,608)
At India's statutory income tax rate of 25.17% (March 31, 2024: 25.17%)	(3,766)	(5,942)
Adjustments:		
Deferred tax assets not recognised on tax losses	3,716	5,696
Deferred tax assets not recognised on temporary differences and others	50	227
	-	(19)

b) Deferred tax

Deferred tax relates to the following :

	As at March 31, 2025	As at March 31, 2024
Intangible assets	(16)	(37)
Net deferred tax asset / (liability)	(16)	(37)

Under the Income Tax Act, 1961, carried forward business loss expires in 8 years after the year in which they originate and unabsorbed depreciation can be carried forward indefinitely. Unrecognised deferred tax asset relates to carried forward business loss, unabsorbed depreciation and temporary differences, if any, which do not qualify for recognition as per applicable accounting standards as there is no evidence of future taxable profits.

The Holding Company has not recognised deferred tax assets on carried forward business losses and unabsorbed depreciation amounting to Rs. 160,959 (March 31, 2024: Rs. 169,148) and Rs. 25,696 (March 31, 2024: Rs. 24,499) respectively. The carried forward business loss as per the Income Tax Return filed by the Company for the AY 2025-26 will

expire based on the year of origination as follows:

	Carried Forward Business loss
March 31, 2026	6,193
March 31, 2027	6,754
March 31, 2028	14,668
March 31, 2029	24,103
March 31, 2030	39,981
Thereafter	69,260
Total	1,60,959

[611000] Notes - Exploration for and evaluation of mineral resources

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2024 to 31/03/2025	01/04/2023 to 31/03/2024
Disclosure of exploration and evaluation assets [TextBlock]		
Whether there are any exploration and evaluation activities	No	No

[611900] Notes - Accounting for government grants and disclosure of government assistance

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2024 to 31/03/2025	01/04/2023 to 31/03/2024
Disclosure of accounting for government grants and disclosure of government assistance [TextBlock]		
Whether company has received any government grant or government assistance	No	No
Capital subsidies or grants received from government authorities	0	0
Revenue subsidies or grants received from government authorities	0	0

[401100] Notes - Subclassification and notes on liabilities and assets

Subclassification of trade receivables [Table] **..(1)**

Unless otherwise specified, all monetary values are in Millions of INR

Classification based on current non-current [Axis]	Current [Member]			
Classification of assets based on security [Axis]	Classification of assets based on security [Member]		Unsecured considered good [Member]

Claims against the group not acknowledged as debt

	As at March 31, 2025	As at March 31, 2024
a) Bank guarantee	0	0
Total	0	0

"b) Following an information filed by Delhi Vyapar Mahasangh, the Competition Commission of India (“CCI”), passed an order on January 13, 2020 to its Director General (”DG”) to investigate certain matters alleging competition law violations by Flipkart Internet Private Limited (‘FKN’). On February 21, 2020, FKN filed a petition before the Single Bench of the Karnataka High Court (“Single Bench”) to quash the investigation ordered by CCI and obtained a stay from the Single Bench on February 27, 2020. However, on June 11, 2021 the Single Bench dismissed the petition filed by FKN. FKN challenged this order of June 11, 2021, before the Division Bench of the Karnataka High Court (“Division Bench”). On July 23, 2021, after hearing the arguments, the Division Bench dismissed FKN's Appeal. FKN challenged this order before the Supreme Court and on August 9, 2021, the Supreme Court upheld the order of the Division Bench and directed FKN to participate in the investigation. Since then, FKN received multiple Request for Information (“RFIs”) from the office of the DG and the same have been responded to by the respective entities. The Company on 13 September 2024 received a non-confidential version of the DG’s investigation report. The DG Report is merely a recommendation and CCI is not bound to accept the DG Report and must conduct an independent analysis of the DG Report and objections by Flipkart and the other opposite parties, as well and hold an oral hearing before passing its final order. Pending the final CCI Order, the Group does not believe that this matter will have a material adverse effect on its business, financial condition, results of operations or cash flows. he final CCI Order would also be subject to appropriate appellate proceedings.

c) On November 6, 2018, CCI dismissed an information filed by the All India Online Vendors Association (“AIOVA”) for alleged violations by the Company. AIOVA challenged this CCI order before the National Company Law Appellate (“'NCLAT”). On March 4, 2020, NCLAT overturned the CCI order and directed the DG to start an investigation in the matter. The Company preferred an appeal before the Supreme Court. On December 2, 2020, the Supreme Court stayed the operation of the NCLAT order implying a stay on the investigation. The matter now has been listed for hearing on August 20, 2025. Pending the ultimate outcome of this litigation, the Group does not believe this matter will have any material adverse effect on its business, financial condition, results of operations or cash flows, especially considering that no investigation has commenced so far.

d) In July 2021, the Directorate of Enforcement in India issued a show cause notice to Flipkart Private Limited and one of its subsidiaries (""Flipkart""), and to unrelated companies and individuals, including certain current and former shareholders and directors of Flipkart. The notice requests the recipients to show cause as to why further proceedings under India's Foreign Direct Investment rules and regulations (the ""Rules"") should not be initiated against them based on alleged violations during the period from 2009 to 2015. The notice is at an initial stage of proceedings under the Rules which could,

depending upon the conclusions at the end of the initial stage, lead to a hearing to consider the merits of the allegations described in the notice. Flipkart has sought legible copies of the 'Relied Upon Documents" and is awaiting response on the same. If the matter progresses to consideration of the merits of the allegations, Flipkart intends to defend against the allegations vigorously. Additionally, between September 2023 and February 2025, the Enforcement Directorate (""ED""), Bengaluru issued a set of summons and emails requesting for certain business and financial information with respect to the Company and details of foreign investments received by other group companies along with appearance of senior Flipkart

Officials including Group CEO, who last appeared before ED office on March 19, 2024. The respective entities have submitted all the information as requested with the ED. Accordingly, the Company does not believe that this matter will have a material adverse effect on its business, financial condition, results of operations or cash flows.

e) The Holding Company is contesting various indirect tax demands [March 31, 2025: Rs.12,569 (March 31, 2024: Rs.11,194], based on the facts of the matter involved, the management believes that the final outcome of the disputes should be in favour of the Company. Accordingly no tax expense has been accrued in the consolidated financial statements for the year ended 31 March 2025, in regards to these demands.

f) The Holding Company is party to certain suits that have risen in the ordinary conduct of its business. While the Holding Company currently believes that such suits, individually or in aggregate, will not have a material adverse impact on its financial position, cash flows, or results of operations, the litigation and other claims are subject to inherent uncertainties, and management's view of these matters may change in the future. Based upon the future outcomes if necessary required adjustments will be carried out.

23. Capital management

"The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, loans and borrowings (excluding cash and short-term deposits), trade and other payables, provision for employee benefits, deferred tax liabilities and other liabilities. Capital includes equity attributable to the equity holders of the Group.

There has been no change in the capital management policy of the Group."

	As at	As at
	March 31, 2025	March 31, 2024

Total capital	11,630	(6,110)
Capital and debt	1,26,155	1,01,843
Gearing ratio	91%	106%

24. Financial risk management objectives and policies

"The Group is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest risk and foreign currency risk. The Board of Directors reviews and agrees policies and procedures for the management of these risks.

The following sections provide details regarding the Group's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks, except as disclosed in Note 24 (d) foreign currency risk section."

a) Credit risk

"Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including investment securities, loans, cash and short-term deposits), the Group minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant."

Financial assets that are neither past due nor impaired

Trade receivables that are neither past due nor impaired are with creditworthy debtors with good payment record with the Group. Cash and short-term deposits, loans and investment securities that are neither past due nor impaired are placed with reputable financial institutions or companies with high credit ratings and no history of default.

Financial assets that are past due but not impaired

There is no other class of financial assets that is past due but not impaired except for trade receivables of Rs. 6,562 as of March 31, 2025 and Rs. 8,065 as of March 31, 2024, respectively. Of the total receivables, Rs. 13,220 as of March 31, 2025 and Rs. 10,196 as of March 31, 2024, respectively, were neither past due nor impaired. The Group's credit period generally ranges from 30-90 days. The aging analysis of the receivables has been considered from the date the invoice falls due. The age wise break up of receivables, net of allowances that are past due, is given below:

	As at March 31, 2025	As at March 31, 2024
Financial assets that are neither past due not impaired	13,220	10,196

Financial assets that are past due but not impaired		
Past due 0 – 30 days	1,924	1,706
Past due 31 – 60 days	1,205	1,906
Past due 61 – 90 days	681	944
Past due over 90 days	2,752	3,509
Total - past due but not impaired	6,562	8,065

Financial assets that are impaired

Information regarding financial assets that are impaired is disclosed in note 5(ii), trade receivables and note 5(v), other financial assets

b) Liquidity risk

"Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's objective is to maintain a balance between continuity of funding and flexibility.

The Group assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. Access to sources of funding is sufficiently available."

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Group's financial liabilities at the end of the reporting period based on contractual undiscounted repayment obligations.

As at March 31, 2025

	One year or less	One to five years	Over five years	Total
Financial liabilities				
Trade payables	40,622	-	-	40,622
Borrowings	16,042	-	-	16,042
Lease liabilities	1,087	1,894	-	2,981

Other financial liabilities	45,864	-	-	45,864
Total undiscounted financial liabilities	1,03,615	1,894	-	1,05,509

As at March 31, 2024

	One year or less	One to five years	Over five years	Total
Financial liabilities				
Trade payables	26,175	-	-	26,175
Borrowings	9,849	-	-	9,849
Lease liabilities	1,204	2,831	-	4,035
Other financial liabilities	55,005	-	-	55,005
Total undiscounted financial liabilities	92,233	2,831	-	95,064

The table below shows the contractual expiry by maturity of the Group's contingent liabilities and commitments. The maximum amount of the financial guarantee contracts are allocated to the earliest possible period in which the guarantee could be called.

As at March 31, 2025

	One year or less	One to five years	Over five years	Total
Bank guarantee	0	-	-	0
	0	-	-	0

As at March 31, 2024

	One year or less	One to five years	Over five years	Total

Bank guarantee	0	-	-	0
	0	-	-	0

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from their loans and borrowings, interest-bearing loans given to related parties and investments in debt securities. The Group does not have any significant interest rate risk as all interest bearing assets and liabilities have fixed interest rates.

d) Foreign currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the Statement of Profit and Loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Group. The Group's primary transactional currency is Indian rupee and the foreign currency transactions are restricted to secured borrowings and certain trade and other payables/receivables.

(Amount in foreign currency in millions)

Particulars	Currency	Amount in foreign currency	Amount in Rs.	Amount in foreign currency	Amount in Rs.
Financial Assets					
Trade Receivables	USD	14	1,159	13	1,094
	Others*	0	18	1	40
Other Assets	USD	0	5	-	-
Financial Liabilities					
Trade Payables	USD	6	527	4	368
	Others*	0	16	0	17
Other Financial liabilities	Others*	0	9	-	-
Share-based payments	USD	101	8,617	190	15,827

The following table demonstrates the sensitivity of 5% increase /(decrease) in the exchange rate of Indian rupee would result increase in the loss before tax of the Group.

	As at		As at	
Currency	March 31, 2025		March 31, 2024	
Increase by 5%	Decrease by 5%	Increase by 5%	Decrease by 5%	
USD	(390)	390	(755)	755
Others*	(0)	0	1	(1)
Total	(390)	390	(754)	754

*Others include CAD, EUR, HKD & ZAR

25. Fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial instruments whose carrying amounts approximate fair value

The carrying values of trade and other receivables, other assets, cash and short term deposits, trade and other payables, loans and borrowings and balances with related parties, based on their notional amounts, reasonably approximate their fair values because these are mostly short term in nature.

Fair value of financial instruments that are carried at fair value

There are no financial instruments carried at fair value by level of fair value hierarchy as at March 31, 2025 (March 31, 2024 : Nil).

Fair value hierarchy

The Group classifies fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy have the following levels:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities,

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

28. Reporting requirement under regulation 31(2) of the Insurance Regulatory and Development Authority of India (Registration of the Corporate Agents) Regulations, 2015 ("Regulation")

a) Segment wise reporting of revenue received for insurance intermediation and other income from insurers.

	For the year ended	For the year ended
	March 31, 2025	March 31, 2024
Commission Income	55	63

Corporate agents whose principal business is other than Insurance Intermediation is required to maintain segment wise reporting capturing the revenue received for insurance intermediation and other income from insurers.

29. Segment Reporting

The Group primarily engages in business of marketplace services and related support services under which third-party sellers sell products on the Company's website and mobile application to customers. The Board of Directors of the Company allocate the resources and assess the performance of the Group, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence there is only one reportable segment in accordance with the requirements of Ind AS - 108 – ''Operating Segments''. As the Group's revenues are from domestic sales, no separate geographical segment is disclosed. The revenues, total expenses and profit as per the Statement of Profit and Loss represents the revenue, total expenses and the profit of the sole reportable segment.

i) Entity wide disclosure as required by Ind AS 108 "Operating segment" are as follows:

	For the year ended	For the year ended
	March 31, 2025	March 31, 2024
Revenues from external customers for each services or each group of similar services		
Income from services		
India	2,04,933	1,79,073
Outside India	-	-
Total	2,04,933	1,79,073

ii) Non-current assets (other than financial assets and deferred tax assets) located in the Group's country of domicile and in all foreign countries in which the Group holds assets

	As at March 31, 2025	As at March 31, 2024
India	7,208	9,423
Outside India	-	-
Total	7,208	9,423

iii) Details in respect of percentage of revenues generated from top customer and revenues from transactions with customers amounts to 10 percent or more of Group's revenues from product sale

No single customer contributes 10 percent or more of the Group's total revenue for the years ended March 31, 2025 and March 31, 2024.

30. Transfer pricing

The Group has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Group is in the process of updating the documentation for the international transactions entered into with the associated enterprises during the financial year. The Management is of the opinion that its international transactions are at arm's length so the aforesaid legislation will not have any impact on the Consolidated Financial Statements, particularly on the amount of tax expense and that of provision for taxation.

"31. The Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

The Holding Company has used accounting software for maintaining its books of account which did not have a feature of recording audit trail (edit log) facility.

Further, the Company has also used accounting software which are operated by a third-party software service providers for maintaining its books of accounts. The 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with SAE 3402, Assurance Reports on Controls at a Service Organization) for the respective software, do not include information whether the audit trail feature of such software was enabled and operated throughout the year."

32. Assets Held for Sale

	As at	As at
	March 31, 2025	March 31, 2024

Property, plant and equipment		
Gross block	-	23
Accumulated Depreciation	-	(19)
	-	4

33. Key ratios*

Ratios	As at March 31, 2025	As at March 31, 2024	Variance %	Reason for Variance	
(a) Current ratio = Current Assets / Current liabilities	1.04	0.85	23 %		
(b) Debt-Equity ratio = Total Debt / Shareholders Equity	1.38	(1.61)	(186)%	Refer Note 1	
(c) Debt service coverage ratio = Earnings available for debt service / Debt service	2.70	(5.86)	146 %	Refer Note 2	
(d) Return on Equity = Net Profits after taxes / Average Shareholder's equity	(5.41)	(3.81)	(42)%	Refer Note 3	
(e) Trade receivable turnover ratio = Revenue from Contracts with Customers/ Average Trade Receivables	10.96	13.95	(21)%		
(f) Trade payable turnover ratio = Total Expenses ** / Average Trade Payables	5.07	5.19	(2)%		
(g) Net capital turnover ratio = Revenue from Contracts with Customers / Average Working capital	(33.44)	(17.61)	90 %	Refer Note 4	
(h) Net profit ratio = Net Profit / Revenue from Contracts with Customers	(0.07)	(0.13)	45 %	Refer Note 5	
(i) Return on Capital Employed = Earnings before interest and taxes / Capital Employed	(0.54)	(14.48)	96 %	Refer Note 6	

* Ratios variances have been explained for changes by more than 25% as compared to March 31, 2024.

** Collection Charges + Logistic Service Charges + Storage Service Charges + Marketplace Charges + Other Expense - Exchange Fluctuation loss/(gain)- Bad depts written off - Allowance for bad and doubtful debts and advances

Note 1 : Variance is due to increase in borrowings to meet working capital requirements and increase in shareholder's equity.

Note 2: Decrease in losses for the year ended March 31, 2025 and average postive equity has lead to an improvement in this ratio.

Note 3: Decrease in losses for the year ended March 31, 2025 and average postive equity has lead to an decrease in this ratio.

Note 4: Improvement in the Ratio on the account of increase in revenue has increase during the year and improvement in the working capital as well for the year end March 31, 2025.

Note 5: Improvement in the ratio due to improvement in the net loss and increase in the revenue for the year ended March 31, 2025.

Note 6: Decrease in the ratio on account of the increase in the capital employed during the year ended March 31, 2025.

34. Relationship with struck off companies:

The Group has balance with the below-mentioned companies struck off under Section 248 of Companies Act, 2013 or Section 560 of Companies Act, 1956:

36. Other statutory information:

"(i) The Group has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries except for the details given below:"

During the year, the Company advanced loans amounting to Rs.728 (March 31, 2024: Rs.570) to Myntra Jabong India Private Limited (a fellow subsidiary) on various dates which was further advanced by Myntra Jabong India Private Limited on various dates to Myntra Designs Private Limited (a fellow subsidiary).

(ii) No funds have been received by the Group from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Group shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries, except for the details given below:

During the year the Company has taken demand loans from Flipkart India Private Limited (a fellow subsidiary) aggregating to Rs. 247,527 (repaid during the year: Rs.241,334). Further, during the year, the Company has raised monies from Flipkart Marketplace Private Limited & Flipkart Private Limited through a rights issue aggregating Rs. 32,488. The Company has also given loans to various related parties aggregating Rs. 67,723 (repaid during the year: Rs. 55,533). In view of the large number of transactions and absence of a written understanding that the Company is lending on behalf of the Funding Parties, it is not practicable to ascertain the exact amounts of onward lending made by the Company which is initially out of the funds provided by the Funding Parties. The party wise details of loans advanced during the year are disclosed in note 20 “Related `Parties”. The loans taken and loans given are for general corporate and business purpose.

The above transactions are in compliance with the relevant provisions of the Foreign Exchange Management Act, 1999 (42 of 1999) and the Companies Act, 2013 and the transactions are not violative of the Prevention of Money-Laundering act, 2002 (15 of 2003).

(iii) The Group does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.

(iv) The Group does not have any charges or satisfaction which is yet to be registered with ROC beyond the statutory period

(v) The Group has not traded or invested in Crypto currency or Virtual Currency during the financial year.

(vi) The Group does not have not any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961

(vii) The Group does not have not any long term commitments/contracts including derivative contracts for which there any material foreseeable losses.

"37. Events occurring after reporting date

1.The Board at its meeting held on April 21,2025 approved the composite Scheme of Arrangement (“Scheme”) between Flipkart Health Private Limited, Quickroutes International Private Limited, Flipkart Marketplace Private Limited, FK Myntra Holdings Private Limited, Flipkart Investments Private Limited, KLICK2SHOP Logistics Services International Private Limited, Flippay Private Limited, incorporated under the laws of Singapore and the Company and their shareholders and creditors and Flipkart Private Limited incorporated under the laws of Singapore and the Company and their shareholders and creditors. The Scheme has been filed with National Company Law Tribunal, Bengaluru Bench and in the General Division of the High Court of the Republic of Singapore on May 22, 2025.

2.Subsequent to the reporting period, and in accordance with the approval granted by the Members of the Company, the Board of Directors, at its meeting held at different dates, has allotted the following equity shares:

(i) 24,743,059 Class A equity shares of face value of Rs.1 each pursuant to Rights Issue.

(ii) 2,910,112,394 Class A equity shares of face value of Rs.1 each and 12,456,633 Class B equity shares of face value of Rs.21082.10 each in the ratio of a) 101 Class A Equity bonus shares of Rs.1/- each, for every 1 existing Class A Equity Shares held by the shareholders & (b) 101 Class B Equity Bonus Shares of Rs.21082.10 each, for every 1 existing Class B Equity Shares by capitalization of the Securities Premium account of the Company.

No subsequent events or transactions have occurred after the end of the reporting period other than mentioned above that would have material effect on the financial statements as at and for the year ended March 31, 2025."

13. Revenue from contracts with customers

a) Disaggregation of revenue from contracts with customers:

The Group primarily engages in marketplace services under which third party sellers sell products on the Company's website to customers. In the below table, revenue from contracts with customers is disaggregated by categories of business operations.

	For the year ended March 31, 2025	For the year ended March 31, 2024
Income from services		
Collection services	10,704	13,546
Marketplace services	77,506	37,342
Storage services	2,682	1,721
Logistic services	42,245	68,376
Advertisement services	63,170	49,726
Other operating revenue	8,626	8,362
Total	2,04,933	1,79,073

b) Timing of revenue recognition

	For the year ended March 31, 2025	For the year ended March 31, 2024
Services transferred at a point in time	1,99,538	1,74,453
Services transferred over time	5,395	4,620

Total	2,04,933	1,79,073

c) Contract balances:

	As at March 31, 2025	As at March 31, 2024
Trade receivables (including unbilled receivables (refer note 5(ii)))	19,724	17,687
Unearned revenue (refer note 9)	2,394	2,428

Disclosure of employee benefits [Text Block]

26. Gratuity plan

The Group operates a defined benefit gratuity plan for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets a gratuity on departure at 15 days of last drawn salary for each completed year of service. The plan is not funded by the Group. The valuation has been carried out using projected unit credit method as per Ind AS 19 to determine the present value of defined benefit obligation and related current service cost.

Additional disclosures need to be considered:

(i) Interest risk

The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability as shown in financial statements.

(ii) Liquidity risk

This is the risk that the Group is not able to meet the short-term gratuity pay-outs. This may arise due to non availability of enough cash/ cash equivalents to meet the liabilities or holding of illiquid assets not being sold in time.

(iii) Salary escalation risk

The present value of the defined benefit plan is calculated with the assumption of salary increase rate of employees in future. Deviation in the rate of interest in future for employees from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

(iv) Demographic risk

The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.

(v) Regulatory risk

Gratuity benefits are paid in accordance with the requirements of the Payment of Gratuity Act,1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity pay-outs.

The following tables summarize the components of net benefit expense recognized in the Statement of Profit and Loss and the funded status and amounts recognized in the balance sheet:

	As at	As at
	March 31, 2025	March 31, 2024
Statement of Profit and Loss		
Current service cost	228	249
Interest on net defined benefit liability	93	83
Net benefit expense	321	332

Re-measurement (gains)/losses in Other Comprehensive Income		
- Actuarial loss due to liability experience	50	28
- Actuarial loss/ (gain) from demographic assumptions	75	(20)
- Actuarial (gain) due to liability assumption changes	(29)	(25)
Net re-measurement (gain)/loss on net defined benefit liability	96	(17)
Balance sheet		
Present value of defined benefits obligation	1,430	1,295
Plan liability	1,430	1,295
Change in the present value of the defined benefit obligation are as follows:		
Opening defined benefit obligation	1,296	1,138
Current service cost	228	249
Transfer in/(out)	45	(14)
Net interest on net defined benefit liability	93	83
Benefits paid directly by the Group	(327)	(143)
Amount recognised in other comprehensive income/loss	96	(17)
Defined benefit obligation as at the end of the year	1,431	1,296

The principal assumptions used in determining gratuity and leave benefit obligations for the Group's plan are as follows:

	As at	As at

	March 31, 2025	March 31, 2024
Discount rate	6.75%	7.30% - 7.50%
Expected rate of return on assets	NA	NA
Salary escalation rate	8.00%	For G9 and above, 3% for first year and 7% thereafter For G8 and below, 9% for first year and 7% thereafter For others, 10%
Mortality rate*	100% of IALM 2012-14	Indian Assured Lives Mortality (100% of IALM 2012-14)
Withdrawal rate	For G9 and above, 18% for first year and 18% thereafter For G8 and below, 19% for first year and 19% thereafter	For G9 and above, 18% for first year and 15% thereafter For G8 and below, 15% for first year and 12% thereafter For others, 10.50%

* As published by IRDA and adopted as Standard Mortality Table as recommended by Institute of Actuaries of India effective April 1, 2013

	As at	As at
	March 31, 2025	March 31, 2024
Sensitivity analysis of assumptions used		
Discount rate		
Effect on defined benefits obligation due to 0.5% increase in discount rate	(22)	(40)
Effect on defined benefits obligation due to 0.5% decrease in discount rate	48	46
Salary escalation rate		
Effect on defined benefits obligation due to 0.5% increase in salary escalation rate	39	39

Effect on defined benefits obligation due to 0.5% decrease in salary escalation rate	(14)	(35)

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Method used for sensitivity analysis: The sensitivity analysis above determine their individual impact on the plan's end of year defined benefit obligation. In reality, the plan is subject to multiple external experience items which may move the defined benefit obligation in similar or opposite directions, while the plan's sensitivity to such changes can vary over time.

	As at	As at
Expected benefit payments	March 31, 2025	March 31, 2024
Within 1 year	294	220
2-5 years	785	551
Beyond 5 years	1,049	1,233

The weighted average duration of the defined benefit obligation is 5 years (March 31, 2024: 6 years).

Disclosure of share-based payment arrangements [Text Block]

27. Share based payments

a. Employee share option plan

"All the employees, officers, directors, business partners, consultants and advisers or any other person as approved by the Board, are eligible for being considered for the grant of stock options under Flipkart Stock Option Plan 2012 ('FSOP 2012') and other plans administered by the Intermediate Holding Company . Share options granted by the Intermediary Holding Company are categorised into time-based options and performance-based share options.

Time-based stock options granted under FSOP 2012 would vest between one day and not more than five years from the date of grant of such options. Vesting of options would be subject to continued employment with the Group(in case of an employee) or provision of expertise (in case of a consultant) or continued business partnership (in case of a business partner) or advisory services (in case of an advisor) to the Group or such other criteria determined by the Board and thus the options would vest on passage of time. The specific vesting schedule and conditions subject to which vesting would take place would be outlined in the document given to the option grantee at the time of grant of options. The exercise price of the time-based share options is nil.

Performance-based share options are granted to certain executives and key employees of the Holding Company. Vesting conditions include both market conditions linked to overall Intermediate Holding Company's (of the Group) valuation and other performance conditions such as achievement of certain business targets with an underlying implied service period up to the date of achievement of the performance conditions. The performance awards will expire unvested at the end of the expiry period which is ten years from the grant date if the performance conditions are not met within this period. The exercise price of the performance-based share options is nil."

During the year, the Group has recognised a cost of Rs. 24,946 (March 31, 2024: Rs. 27,955) cross charged under FSOP Scheme and the same has been disclosed under employee benefits expense in the Statement of Profit and Loss.

Movement of share options during the financial year

The following table illustrates the movement of the options during the financial year:

	Performance Based		Time Based	
	As at March 31, 2025	As at March 31, 2024	As at March 31, 2025	As at March 31, 2024
	(Number)	(Number)	(Number)	(Number)
Outstanding as at the beginning of the year	13,12,095	3,62,821	1,20,47,631	95,69,658
- On account of transfer of employees from group companies	-	-	7,223	(1,26,635)
- Granted	2,22,135	9,94,010	14,68,091	29,85,988
- Repurchased	-	-	-	-
- Forfeited	(52,758)	(44,736)	(7,70,288)	(3,81,380)

Outstanding as at the end of the year	14,81,472	13,12,095	1,27,52,657	1,20,47,631
Vested as at the year end	7,86,946	3,88,958	88,09,373	79,62,145

Fair value of share options granted

The fair value of share options granted by the Intermediate Holding Company that are classified as time-based options is estimated at the grant date using arm's length price of the share options as reduced by DLOM (Discount due to Lack of Marketability) computed using Finnerty model, taking into account the terms and conditions upon which the share options were granted. The inputs used to measure fair values of options granted on the grant date were as follows:

The following table lists the inputs to the option pricing models for the year ended

	As at	As at
	March 31, 2025	March 31, 2024
Dividend yield (% p.a.)	0%	0%
Expected volatility (% p.a.)*	35.8% - 47.5%	37.4% - 47.5%
Expected life of option (years)	1.35 years	1.35 years

The fair value of share options granted by the Intermediate Holding Company that are classified as performance-based awards is determined based on the Monte Carlo simulation. Performance conditions that are based on market valuations are included in the determination of fair value as at the grant date. The fair value is computed based on the terms and features of the share options. The inputs used to measure fair values of options granted on the grant date were as follows:

	As at	As at
	March 31, 2025	March 31, 2024
Dividend yield (% p.a.)	0%	0%
Expected volatility (% p.a.)	35.8% - 41.9%	41.9% - 43.9%
Risk-free interest rate (% p.a.)	3.55% - 4.35%	3.55% - 4.07%
Expected life of option (years)	9 - 12 Years	9 - 12 Years

*Expected volatility is based on historical volatility of share prices of comparable companies for the expected life of options.

For time-based share options issued by Flipkart, the weighted average fair value of options granted during the year was

USD 157.80 (March 31, 2024: USD 147.02). As at March 31, 2025, the weighted average contractual life of time-based options is 1.18 years (March 31, 2024: 1.25 years) and for performance -based options is 9.68 years (March 31, 2024: 10.74 years).

b. Employee Stock Appreciation Rights:

"All Eligible Employees as approved by the Board, are eligible for being considered for the grant of stock appreciation rights under ""Cleartrip Stock Appreciation Rights Plan 2022"" (Cleartrip SAR Plan), ""Flipkart Health Stock Appreciation Rights Plan 2022"" (Flipkart Health SAR Plan) and ""ANS Digital Stock Option Plan 2022"" (ANS SAR Plan).

The Stock Appreciation Rights implemented and granted during the year under Cleartrip SAR Plan, Flipkart Health SAR Plan and ANS SAR Plan would vest between one day and not more than four years from the date of grant of such rights. Vesting of rights would be subject to continued employment with the Company (in case of an employee) or such other criteria determined by the Board and thus the options would vest on passage of time. The specific vesting schedule and conditions subject to which vesting would take place would be outlined in the document given to the option grantee at the time of grant of SAR's. The exercise price of the time-based SAR's is Nil.

During the year, ANS also issued ""ANS Digital Stock Option plan 2022"" (hereinafter referred to as the ""ANS ESOP"" or the ""Plan""). All Eligible Employees are eligible for being considered for the Grant of Options under the ANS ESOP. The specific Option Grantees to whom Options will be granted and their eligibility criteria shall be determined by the Board or the relevant members of management who have been delegated such authority by the Board or Committee. The options granted to the Options Grantees shall vest over a period of four years from the date of Grant as follows:"

First anniversary of the Grant date	1/4th of options Granted
On completion of every month thereafter until the fourth anniversary of the Grant date:	1/48th of options Granted

Unless otherwise agreed or stated in the Stock Option Agreement, Vesting of the Options is subject to the Option Grantee's continued employment with the Company. Such Option Grantee's employment with the Company shall not be deemed to terminate if the Option Grantee takes any sick leave or any other bona fide leave of absence approved by the Company for 365 days or less. In the event of leave of absence in excess of 365 days (even where approved by the Company), such leave of absence will not be considered as continuous employment of the Option Grantee.

Each Option Grantee shall be liable to pay the Exercise Price, if any, at the time of Exercise. Vested Options can be Exercised only after the completion of the Company's IPO.

Movement of Stock Appreciation Rights during the financial year:

Profit (loss), attributable to ordinary equity holders of parent entity including dilutive effects	-14,640	-23,283
Weighted average shares and adjusted weighted average shares [Abstract]		
Weighted average number of ordinary shares outstanding	[shares] 262,77,65,923	[shares] 262,77,65,923

Textual information (23)

Disclosure of earnings per share [Text Block]

22. Earnings per share (EPS)

Basic earnings per share:

Basic earnings per share is calculated by dividing the loss attributable to equity shareholders of the Holding Company by the weighted average number of ordinary shares outstanding during the period, excluding equity shares purchased by the Company, if any.

Diluted earnings per share:

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding during the period for assumed conversion of all dilutive potential ordinary shares, unless these shares are not anti-dilutive.

A reconciliation of loss for the year and weighted average number of ordinary shares used in the computation of basic and diluted earnings per share is stated below:

	As at	As at
	March 31, 2025	March 31, 2024
Loss during the year attributable to owners	(14,640)	(23,283)
Weighted average number of ordinary shares outstanding for calculation of EPS	2,62,77,65,923	2,62,77,65,923
Basic and diluted earnings per share (Rs. per share)	(5.57)	(8.86)
